

Internships in Autism and Developmental Disabilities for College Students

Why do a Clinical Internship with the KidsLink School?

- *Observe many different disciplines working collaboratively (e.g., Teachers, Psychologists, BCBA's, Speech Pathologists, Occupational therapists, ABA therapists, etc.)*
- *Attend and observe weekly clinical and behavioral treatment team meetings*
- *Gain exposure to a variety of special needs populations (e.g., Autistic Disorders, Down Syndrome, Cognitive Impairments, Genetic Disorders)*
- *Observe crisis management experts at work*
- *Engage in meaningful experiences helping students reach their goals*
- *Gain valuable training experience you can add to your resume*

What types of experiences will I have?

- *Respond to non-urgent classroom requests to support our teachers and students*
- *Provide students and staff with short breaks for the restroom, water, etc. as needed*
- *Assist with transitioning students to and from transportation*
- *Provide students with proactive breaks for coping and self-regulation*
- *Help create new student materials given directives from team members*
- *Assist in the lunchroom with prep, clean up and other activities of daily living*
- *Assist in ensuring the end of day closing schedule is complete*
- *Assist in maintaining the organization of safety equipment throughout the day*
- *Attend before and after school day training and staff meetings*
- *4 month to 12 month experiences*
- *6 hours-12 hours/week*
